Special Drive Unit Offer

You can now power your static locomotive model with a motor and controller

CNC machined brass gearbox and drives via a 25:1 DELRIN gear and worm with MASHIMA 1833 Motor. For standard 3/16" Gauge 0 axle

TRACK AND SPEED CONTROLLER - WE RECOMMEND

Your Mallard model is designed to 0-Gauge specifications and will run on all finescale 0-Gauge track.

We recommend that the engine that we supply you with is powered with a 14 V DC 0-gauge Controller-Single Track 2.5 Amp.

Both of these items are available at all good model retailers

These products are not suitable for children under the age of 14. Small parts included. These products are not toys and not designed for use in play

2 easy ways to order your gearbox and motor

- 1. Complete the attached form with your credit/debit card details or a cheque made payable to Hachette Partworks Ltd. If you wish to take advantage of our special offer please include your completed voucher sheet and cut out this self-sealing form and return to the address below.
- 2. You can order via our hotline, call 0844 493 5424 (calls charged at local rate).

Payment will not be taken until your item(s) have been dispatched.

You will receive a letter confirming your order. As these are high-quality parts, they will take time to produce. Please allow 6 weeks for delivery.
